

## Empower your team to be their best with online learning

Go beyond the classroom instruction of a traditional learning management system and deliver the kind of interactive development courses that help people feel like superstars. With Blackboard's Learning Core solution, you can engage with your employees, customers, and partners - no matter where they're located or what devices they use.

### Our Recommended Adoption Services\*

- › **Training and project management services including interactive workshops to refine knowledge and learn best practices.**
- › **Configuration guidance with guides to keep your skills fresh and help you teach others**

The LMS is moving – quickly – beyond its traditional acronym. Are you ready? Today's learners are expecting more from their learning platforms: more flexibility, more personalisation, more content, and of course, ease of use.

Blackboard is leading this change by integrating the most proven and scalable technologies and services to bring you fully functional Learning Solutions. These solutions enable your organisation to drive learning and development, improve retention rates, assessments, and social learning through the delivery of a learning environment that meets the growing demands of today's learners.

### The Learning Core Solution provides you with these benefits:

- › Course creation, delivery, and management including course assessments to read assessments and grading
- › Share, reuse, and find quality learning objects, making it easier to build courses in Blackboard, engage learners, and achieve corporate training goals
- › Expedite the onboarding of new employees, ramp up sales training, build ongoing mentorship into your learning programs, and fully train your partners and customers.
- › Mobile access to courses and organisations, including assignments, grades, notifications and collaboration tools
- › Utilise social learning features to create groups and communities of practice with customised activities and roles that stimulate engagement outside of formal training
- › Flexible delivery options, self-hosted, or Blackboard hosted

In addition to the learning tools, we highly recommend that you take advantage of our Adoption Services. We have the expertise to help you adopt technology in a way that your organisation will accept – with a focus on **ease of use, holistic change management, and post deployment training and support.**

### Learning Solutions to Fit Your Organisation's Needs, Because One Size Does Not Fit All
